Blueprint
Wraps

Blueprint Wraps is a local business created by teenage designer and entrepreneur, EliseAnne Koskelo. We offer elegant pieces of wearable art that will enhance any fashionista's wardrobe.

Along with our classic cape style, popular since our founding in 2011, this year, we are featuring two avant-garde designs- **the poncho**, as a modern take on a timeless classic, and **the stole**, a comfortable and elegant combination of your favorite sweater and classy shawl.

THE CAPE

This unique wrap will add a striking touch to any outfit whether for a date, the office, or around town

THE PONCHO

THE STOLE

One of the latest additions to our collection of wearable art, the stole is a unique and elegant wardrobe essential.

The design combines a classy shawl with your favorite sweater.

Made in fibers ranging from mohair to jewel yarn, we have a stole that's perfect for you!
